DETAILED ACTION

1. In response to amendment filed on 08/07/2003, claims 1-9 and claim 11 are pending in this application as a result of cancellation of the claim 10 and additional of the claim 11.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6 and 11 are rejected under 35 U. S. C. § 102 (e) as being anticipated by Poustie et al., U.S. patent No. 5,796,891.

Regarding claims 1-2, and 11, Poustie et al. discloses a multi -wavelength laser source (MWLS) system, comprising: first and second lasers (multi- λ source) having first (f_1) and second (f_2) lasing frequencies (Fig 14), respectively; means for amplifying combined signals of said first and second lasers (Er/Yb Fibre Amplifier), means for multiplying the amplified combined signals to yield comblike multi-channel WDM (Comblke Dispersion Profiled Fibre) laser signals comprising a plurality of more than two channels separated from each other by a frequency equal to the difference between f_1 and f_2 (See column 9, line 32-52).

Regarding claims 3-6, Pustie et al. discloses system, wherein predetermined propagation characteristics being propagation mode (See abstract), dispersion and length (See column 9, line 37-52 and fig. 14), dispersion shifted fiber (DSF) sections (See F1g. 14).

Claim Rejections - 35 U.S.C. § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-9 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Poustie et al., U.S. patent No. 5,796,891.

Regarding claim 7-9, Waarts et al. discloses the claimed invention except for length of fiber, dispersion value and frequency of f_1 and f_2 . It would have been obvious to one of ordinary skill in the art at the time the invention was made to the same value of length, dispersion value and frequency, since it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or working ranges involves only routine skill in the art. In re Aller, 105 USPQ 233.

Response to Arguments

4. Applicant's arguments filed on 08/07/2003 have been fully considered but they are persuasive. Therefore, the rejection has been withdrawn. However, the claims are moot in view of the new ground(s) of rejection.
5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
